

OG-ETH: Opening Day

Jason DeBacker¹ **Richard W. Evans**²

¹University of South Carolina, Department of Economics

²Abundance Institute, Open Research Group, Inc.

May 11, 2026

United Nations, Addis Ababa, Ethiopia

Jason DeBacker, PhD

Professor, University of South Carolina
President, Policy Simulation Library
Foundation

Vice President and Co-founder, Open
Research Group, Inc.

Core maintainer: OG-Core, OG-USA,
OG-ETH, Cost-of-Capital-Calculator,
Tax-Calculator

Richard W. Evans, PhD

Senior Economist, Abundance
Institute

President and Co-founder, Open
Research Group, Inc.

Director and Founder, Open Source
Economics Laboratory

Core maintainer: OG-Core, OG-USA,
OG-ETH

Materials

- 2-day workshop, November 18-19, 2025 available:
<https://eapd-drb.github.io/og-model/ethiopia/>
- UN OG training materials:
<https://eapd-drb.github.io/UN-OG-Training/>
- Schedule and materials for this workshop:
https://eapd-drb.github.io/OG-ETH/content/UNTutorial/getting_started.html

Today: OG-ETH documentation and repository

OG-ETH

- OG-ETH is a calibration of the OG-Core model.

OG-Core: Country Calibrations

What is OG-ETH

- Ethiopian calibration of the OG-Core macro model
- Households
 - Overlapping generations
 - Detailed demographics
 - Calibrated worker productivity
 - Tax incentives and government transfers
- Supply side
 - Firms in multiple industries
 - Total factor productivity and labor augmenting technological progress
 - Tax incentives
- Government: Taxes, transfers, surpluses, deficits, and debt
- International
 - Calibrated international capital flows
 - Remittances
 - Working on adding trade

What questions can you answer with OG-ETH?

- Infrastructure investment
- Energy moderization ([OG-CLEWs: Philippine Energy Plan](#))
- Tax changes, government spending, and debt sustainability ([Italy consumption tax](#), [US tax increase](#), [pension reform](#))
- Education and worker productivity investment
- Public health investment ([AIDS, South Africa](#); [Longevity](#))
- Immigration reform
- AI regulation ([Florida piece](#))

What we want to accomplish after 5 days

We want you to come away with the ability to:

- Run a reform in OG-ETH with your group
- Update the calibration and make personalized modifications
- Collaborate via GitHub on updating the model
- Produce research and policy analysis
- Teach others how to use the model

Final notes on open source

- Open source is important for transparency, replicability, and validation
- Open source is important for collaboration
- Open source is important for AI support
- Open source is important for broad accessibility
- Open source is important for training and continuity
